Steel, aluminum, titanium, custom design & verification

## PARTS

Specifying specification & sourcing

"INNORADIA" is the fusion of "innovation" and "radiation," aiming to be a pioneer in the industry by spreading design concepts filled with creativity and vitality, while advocating for health and eco-friendly through knowledge and practice. With roots as deep as the ocean's depths, our brand confidently sails towards our target customers. Founded in 2015 by stalwarts in the bicycle industry, we possess extensive resources and partnerships across the supply chain.

Our team, comprised of experienced R&D engineers and emerging designers, drives innovation and offers vertically integrated services. Specializing in the design and development of electric bicycles with the capability for mass production, we also excel in the development and integration of lightweight electric vehicles. Additionally, we provide localized logistics and warehousing solutions.

## CITY I

Alloy

700C

Step-Thru

S/M/L

Internal cable routing

Featuring a 250W rear hub motor seamlessly integrated into its frame, alongside a sleek in-frame battery for a tidy aesthetic.

With the added comfort of a front suspension fork, navigate city streets with ease and style. Whether cruising through urban landscapes or commuting to work, this bike offers a smooth and effortless riding experience, blending convenience, elegance, and functionality for urban adventurers.
